EXPERIENCE

My Creative Panda

January 2018 – May 2022

Webmaster

Tarlac City, Tarlac, Philippines

- **Website Layout & UI Design:** Expert in designing and developing responsive, mobile-first website layouts and user interfaces through WordPress, ensuring an intuitive user experience.
- **Performance & Availability Management:** Optimized performance and ensured high availability of WordPress websites, managing all technical aspects for seamless functionality.
- **Content Migration & Backup Management:** Led smooth content migrations with minimal disruption and implemented regular backup protocols to safeguard data and enable quick recovery.
- **Feature Implementation & Enhancements:** Integrated new features and functionality, consistently enhancing the user experience and performance of websites.
- **Cross-Browser & Cross-Device Testing:** Conducted comprehensive testing across browsers and devices, resolving technical issues to ensure a consistent, quality user experience.
- **Backend Integration & API Management:** Integrated various back-end services, APIs, and databases for dynamic, data-driven websites with seamless functionality.
- **WordPress Theme & WooCommerce Development:** Developed custom WordPress themes using Bootstrap 5 and built WooCommerce stores with integrated payment gateways and product management features.
- **Security & Site Management:** Proactively addressed security vulnerabilities through vulnerability assessments, implemented firewalls, and ensured site protection against attacks and data loss.
- **SEO Optimization & Content Updates:** Regularly updated website content and optimized sites for SEO, driving traffic and improving search engine rankings through tools like Google Analytics and Yoast SEO.
- **Server Maintenance & Troubleshooting:** Managed and troubleshooted servers, ensuring the smooth operation and efficient performance of websites.
- **Project Management & Client Support:** Collaborated with stakeholders to gather requirements, manage projects, and provide ongoing technical support, ensuring high customer satisfaction and timely delivery.
- **UI Frameworks & Design Tools:** Developed websites using UIKit and design tools like Figma and Adobe XD to create user-centered, visually appealing interfaces.

E-Rehab Limited Liability Company

May 2022 – Present

Web Designer

Pasay City, Manila, Philippines

- **DNS Management & SSL Implementation:** Managed DNS configurations and integrated SSL certificates to ensure secure, efficient website functionality and protect user data.
- **WordPress Development & Responsive Design:** Developed WordPress websites using HTML5, CSS3, UIKit 2, Less.js, and PHP, ensuring cross-browser compatibility and responsive design across devices.
- **Modern Web Design Trends:** Applied contemporary design elements, such as hero video headers, gradients, and duotones, to enhance visual appeal and engagement.
- **UI Frameworks & Design Optimization:** Expert in utilizing UIKit 2/3 to build clean, user-friendly interfaces and iteratively optimizing designs for improved performance and user experience.
- **Full Development Cycle Participation:** Led and contributed to the entire web development process, from gathering requirements and creating wireframes to conducting thorough QA testing for quality assurance.

- **Content Standards & Brand Consistency:** Enforced visual and content consistency by adhering to brand guidelines, ensuring cohesive and high-quality design across projects.
 - **Site Optimization & Performance:** Focused on optimizing websites for speed, scalability, and SEO, ensuring high-performance websites with seamless user experiences.
-
